THE POSITIVE VOICE

I wish to express my gratitude to the membership of the Alumni Association for electing me to the office of the President. I will endeavor to promote and advance the purposes of our Association. I solicit your co-operation and support, but more important, your analysis and expression.

I enter into the office of the President and undertake its responsibilities at a time of great strife, uncertainty and change, not only in the entire health service community, but in our Nation at large. It would have been nice to have been placed in this office of leadership in a more normal time, when one could enjoy the prestige of the office and the friendship of the members.

Apparently, it was not destined to be so for me. The experience of serving as the last President of the St. Luke's Alumnae Association, and as the first Vice-President of our present Association, was a challenging, evolving, trying, and successful undertaking. This assuredly should have sufficed as an individual contribution. It was for this reason that I was reluctant to even accept the nomination to be a candidate for the office to which you have now elected me.

Now, as your new President, it is apparent that this term of office faces grave and challenging issues. We must re-examine the purposes of our Association as outlined in Article I of our By-Laws. We must reconstruct and redevelop these purposes to be meaningful in light of our present era. We must assume a positive, direct, challenging position representing the opinions of our 2,200 active members. We must attain a position of leadership that is expected of the Alumni of our Alma Maters, past and present, that have graduated over 8,000 nurses in their glorious histories.

To this end, I will seek to appoint committees, new and old, to pursue positive activity in every area that is affecting the Nursing Profession today: legislative, professional status, education, non-professional assistants, collective bargaining, the confusion of the educational programs—associate, diploma, collegiate, and central educational schools. Last, but most important, to establish a nursing school committee for the purpose of positive alumni advisorship to the School of Nursing, and another committee equating the positive function of the Alumni Association to the Hospital.

To this end, I commit my administration. To this end, I seek your co-operation, your activity in any committee work that represents your prime interest. To this end, I ask your participation by writing to me, and to relay to me your opinions in these vital areas.

This is the "Positive Voice" of the Alumni that is the goal of my administration.

Respectfully submitted,
Kathryn E. Gdalkan, R.N., President

EXPLANATION

There has been many queries and suggestions regarding indicating what school is represented by the items in the CLASS NEWS. It is really very simple to ascertain which is what school. All the Pres. items are straight numerals for the year of graduation. Almost all of the St. Luke's items carry "A" or "B" with the date. And all dates from 1960 on are PSL. This should be helpful.

LIVING - IN OUR MEMORIES

Magdalene Steward will indeed live on in the hearts of her many friends and co-workers in the Alumni Association and Presbyterian-St. Luke's Hospital School of Nursing. "Ming", as we all knew her, taught since her graduation in 1941 at first Presbyterian and then the Presbyterian-St. Luke's Hospital Schools of Nursing. She has been in the Natural Science Department and in 1957 was made head of that department. Her faithful, willing, and constant help in the Alumni as Executive Secretary, Board Member and Committee Chairman and member at various times during her many years of service, should be an inspiration to all of us.

Ming died suddenly of a heart attack on the way to work February 9, 1967. She was buried near her home town of Garrett, Indiana on February 12, 1967. A memorial service was held Thursday, February 16, 1967 at the School of Nursing.

Ming has left behind for her friends the legacy of fond memories, through her devotion and dedicated work in the nursing profession. She will indeed continue to live on—in our memories.

Dr. John C. Holden, Director of Westminster House, gave the following tribute to Miss Steward. She had served on the board of Westminster House for several years.

We deeply mourn the loss of Miss H. Magdalene Steward, who died suddenly on Thursday, February 9, 1967. Miss Steward was Instructor of Natural Science, Presbyterian Hospital School of Nursing, 1941-1957; and Director, Department of Natural Science and Instructor, Presbyterian-St. Luke's School of Nursing, 1957-1967. Her education included a B.A. degree from DePauw University in 1927; diploma from Presbyterian Hospital School of Nursing in 1941; and a M.A. degree from the University of Chicago in 1959. Miss Steward was for many years an active and dedicated officer of Westminster House in the Medical Center. Dr. John Holden, Director of Westminster House, paid tribute to her outstanding service at the Memorial Service held in the School of Nursing on Thursday, February 16, 1967. Dr. Holden mentioned Miss Steward's concern for an intelligent faith and philosophy of life, her interest in the ethical problems of modern biology and medicine, and finally her sense of time and eternity, her balance of perspective and involvement. Miss Steward was a teacher, friend and companion of many students.

CLASS NEWS

1898—I only wish there were more space to include the entire article which was sent in regarding an interview with **Nelle Hawsworth Campbell**, a 90-year old graduate of St. Luke's. She recalled her entrance into the School of Nursing where she became known as "Pricilla" because one of the doctors thought she looked like John Alden's Pricilla in her uniform, and she carried the name from then on. Her husband was a senior interne and was not supposed to notice a young nurse so they "dated" on the cable cars. She recalled the hours of duty, study periods, etc. of the student nurse in those days. She has been very active in the local Alumni chapter in Madison, Wis. She attends all the meetings unless the weather is inclement. Any one in the area who is interested in attending the Madison meetings contact the secretary—Ruth Hersekorn Hanson, 4202 Kenwood, Madison, Wis. 53704. Phone 249-1552.

1916—**Edna P. Braun** has been with a sick sister for six months in Grand Rapids, Mich. She has seen several Pres. grads who live there. She misses the Alumni meetings whose programs she finds most interesting.

1917—**Virginia Billow**, a member of the 50th Anniversary class this year has given a one thousand dollar check to the Alumni Education Fund in honor of the St. Luke's 1917 Class. A mighty nice anniversary gift and we thought that you would all be happy to hear about it.

1921—**Mary Everett Merchant** retired from Pres.-St. Luke's June, 1966 and moved to Albuquerque, N. Mex. She sounds very enthusiastic about the weather and scenery, she especially enjoyed the "luminaries" at Christmas time. She has not had time to contact Pres.-St. Luke's grads in the vicinity but if anyone wishes to contact or write to her the address is—303 San Pablo N.E., Albuquerque, N. Mex. 87108.

Connie Conver McDonell is grateful for the greatest gift—good health.

After her long and perilous seige with heart disease she is well enough to be a hospital volunteer 3 days a week.

Ruth Dana Fife is thinning the ranks at home by packing off a few to college and careers. Eldest son David is assigned to a 2 year mission in Santiago, Chile, with the church of the Latter Day Saints. Judy, 19, is at Arizona State U. while Becky 17 started at U. of Arizona. The exploits of this family can hardly be contained in Ruth's annual Christmas letter. Husband Ray is finishing his term as President of the local Medical Society.

Marion Etten must have flipped her lid for she left hospital nursing in order to teach in a state college in Chicago. The course is Health, Safety and First Aid. O.K. teacher.

Joyce Fitch Schroeder in Wausau, Wis. watches her 8th grader son Dale progress in Scouts.

Leona Jahnsen Kouri and family are settled in LaVerne, Calif.

Marion Nielsen Bolton is a busy wife of the Attorney General of the state of Georgia. The politicing is hot and heavy as we all know from the news stories of that fracas.

Betty Kafka Conzett sends a Christmas card with the most beautiful group of 5 youngsters you ever saw. The youngest still in diapers reminds us that we aren't as old as we think.

Mary Jane Lemenager will graduate a daughter from Texas Tech this spring and guides Tom through 10th grade.

Mary Minick is in her 9th year with the Board of Health in Fremont, Ohio.

Ann Mortenson Joehnke is still up in Waterford, Wis. and gets an occasional trip to Chicago when husband Bob comes on business. She visited with Connie McDonell in Dec.

Mona Moughton (our most learned) will definitely wind up that doctoral dissertation this year, at New York U. A feline fellow named Felix Francis runs her household and she continues to teach psych. nursing at NYU.

Loretta Niedbalski Kot, widowed last year, is a busy enough gal caring for a brood of 5. She got to visit with Erma Page Lewis in San Francisco this summer at the ANA Convention.

Madeline Olsen Weibner of Alton, Ill. still there.

1947A—**Ann Woodworth Meissner** is the Assistant Director in an experimental school for retarded adolescents. It is a service-research and administrative job which she likes very much. She said she is probably one of the few registered nurse-certified psychologists around. Her daughter Edie (first of the '47A children) is a sophomore at Beloit College and her son John is a junior in High School. She wonders if there are enough grads around her area who would be interested in a PSL group. Why not contact her and see—6420 Medicine Lake Rd., Apt. 206, Minneapolis, Minn. 55422.

- 1947B—**Betty Scheluraff Brund** moved to California in June and has contacted two members of her class, **Velma Neil Marshall** and **Pen Rogers Craig**. She had also the pleasure of seeing Father Travis whom she had not seen since her marriage at which he had officiated.

Betty Warnack Garman is a Sunday School Supt. and teaches in summer Bible school. She and Jim are both very active in children's and church activities.

Gwen Reed Baker amazes me every year with the longest Christmas letter. Besides keeping ahead of her five boys, she is working full time on nites in O.B. She says she is not a den mother!

May I express my thanks to all the girls who took time to drop me a line at Christmas time. Several asked if we are going to make plans for a reunion in 1968. Everyone interested might send any suggestions with their 1967 Christmas cards.

We are enjoying living in Sidney very much. I'm working "part-time." At least four and sometimes six days a week in a 67 bed hospital. Shelley is taking organ lessons now and Jeff is taking piano. Eric is a first grader. I also bowl every week and belong to two bridge clubs so I don't have a lot of spare time. I was so happy when **Blanche Cravenor Snider** and family stopped to see me this summer. Blanche was thinking about going to work in a Dr's. office.

I'm hoping to see you all in 1968.

Sincerely,

ATTENTION

In order to comply with Post Office regulations the subscription price for "News and Views" is \$1.00 per year. This is included in your annual dues and Life membership. No separate subscriptions—must be in one of the dues—Annual and L.M. This will explain the "stamped" information on the dues notices and also accounts for the lateness of the dues notices.

A WORD OF THANKS

A big thank you to all who sent news for this issue. It's a great improvement over the past few issues. What you think is no great news, is most interesting to your classmates and friends who spot a name familiar to them. Keep it coming.

COME ONE — COME ALL

Come to the Annual Alumni Banquet and encourage all your classmates to come also. You need not belong to the Alumni Association to enjoy the banquet with us. Julie Finleyson, Spring 1967 and Barbara Roessler, Fall 1967, represented their classes at the speakers table.

Miss Payne, Director of the School of Nursing extended greetings to the Alumni and related some enlightening and interesting facts concerning the School and the Nursing Profession. The following is a summary of her address:

Due to the vast changes in nursing and education in general the number of qualified applicants seeking admission to the Diploma Schools has been on the decrease, some of the reasons for this are:

- (1) the scholarship funds available to those seeking college education.
- (2) the increased number of college programs.
- (3) encouragement by high school counselors to qualified high school graduates to seek a college education.
- (4) the A.N.A. Position Paper, which takes the position that all nursing education take place in institutions of higher education.

Because of the dearth of qualified applicants to Presbyterian-St. Luke's Hospital School of Nursing, we have been unable to fill a class for the fall of 1967. As present trends indicate the 1968 class will be the last class to graduate. Some of the possibilities being investigated for use of our facilities are and association with University of Illinois School of Nursing for a clinical experience program at Presbyterian-St. Luke's Hospital, and an affiliation with the Junior College, Associate Degree programs.

The present staffing and salary scale at the hospital was related to the Alumni, and plans for the future include an active recruitment program for registered and licensed practical nurses. Miss Payne stated that we must continue to face facts, and continue to be among the leaders in our Profession.

Sincerely,

Kathryn Minor Gdalan, President

ANNUAL BANQUET APRIL 20, 1967

It has been my privilege to serve the Alumni Association in many capacities and now as your President. We can be proud of our history, for we have graduated over 7000 professional nurses and provided many of the nursing leadership positions in the past three quarters century. The qualities inherent in our Alumni (2000 +) have been built on loyalty, professionalism and service. This is the spirit to which we have all been dedicated. This is the spirit that has made us excel in patient care, and our devotion to our professional tasks.

As your President, I have been made cognizant of the many issues and changes that are to affect the entire nursing profession. I have been made cognizant of the responsibilities facing our Alumni to meet these challenges. We must assume a positive position in making ourselves aware of the multiple problems and issues facing our profession, our school, and our Alumni. We must give profound thought to the solution of these major problems, to accommodate our efforts in achieving our aims.

The major distressing problem that confronts us today is immediate to us, but is national in scope. It is a result of influences and circumstances far beyond our control, our efforts and our direction. We must, positively recognize the realities of today, and set the direction for the future. To this end, I seek your cooperation and activity.

Notwithstanding near and future decisive events in Nursing, the Presbyterian-St. Luke's Alumni Association will endure. It shall be the signal responsibility of our Alumni to promulgate the spirit of our great association designated by loyalty, friendship, professionalism and service—as a continuing exerting influence on the profession of nursing in the present and future.

Thank you

Mrs. Louis Gdalmán

LEGISLATION OF CONCERN TO NURSES MAY REQUIRE YOUR ACTION

During the month of April a number of bills were introduced into the General Assembly or were scheduled for hearings on which action by nurses might be appropriate.

INA supported the introduction of S 513, a measure to provide Good Samaritan protection to nurses through amending the Illinois Nursing Act. The bill passed the Senate and goes now to the House.

The bill declares that a professional nurse "who in good faith provides emergency care without fee at the scene of a motor vehicle accident or in case of nuclear attack shall not, as a result of his acts or omissions, except for wilful or wanton misconduct on the part of such person, in providing such care, be liable for civil damages."

During April also, INA announced opposition to S 553, a bill requiring persons who withdraw blood for blood tests or persons who give injections to be licensed under the Medical Practice Act or under the Illinois Nursing Act.

Reason for INA's opposition is that the bill would license persons to perform a single act and would initiate a trend to include specific functions in the definition of nursing practice. INA's philosophy is that the nursing law must be broad enough to permit flexibility in the utilization of nursing personnel and that the inclusion of specific acts to be licensed is contrary to the need for such flexibility. The measure is also opposed by the Illinois State Medical Society.

All nurses are asked to contact their representatives urging a "yes" vote on House Bills 255, 256, 257, 258, and 259. These amend the Illinois Municipal Code to provide increased taxes. Funds are needed if Illinois cities are to continue to compete salarywise with other states.

An amendment to the Pension Code to penalize state employees by denying them retirement funds (S 118) is opposed by INA. The INA Committee on Legislation declared that the bill would deprive individuals of benefits, deprive public employees of the effective right to bargain collectively and to have a voice in their working conditions and would deter recruitment of quality public employees.

INA gave supporting testimony before the House Committee on Industry and Labor Relations on H 289, which would create a public employment labor act. It would grant public employees the right to bargain collectively with their employer, provides for mediation by a fact-finding board, whose decisions would not be binding, and prohibits strikes and lockouts during negotiations.

INA expressed its position favoring collective bargaining. Its other principles, however, such as the option to give up the right to strike in favor of a binding settlement resulting from fact-finding are not in the bill.

YOUR SLIP IS SHOWING

Your slip is showing—but only to you this time. Many of you may wonder why news you've sent has not appeared in the "News and Views". I will list a few possibilities of why you may not have found your news:

1. All news must have full name—first, maiden, last.
2. Class year must be given.
3. School graduated from—before 1960 group.
4. For births, we would like the husbands full first name included.
5. Marriages must include full names of both parties and the date of the wedding.
6. Death notices should have the date as close as possible to when the person deceased.
7. All news should be written as legible as possible. We love your news but some is very difficult to read.

The above list gives a pretty good idea of what we'd like. We really need lots of news from all of you to make this publication a success. Maybe some have given up sending news because it doesn't appear. One of the above may be the reason. Please send us your news and try to help us by following the above suggestions.

1958—**Cheerio**

I'm home again and broke again, but it was worth it! I did what I most enjoy. If I'd been able to contact everyone, I'd have been to twenty states and one incorporated territory. I didn't receive word from all of you in time however, so my travels this year took me to only sixteen states and Guam.

Spring was the chosen time for my trip even tho there was bad weather here and there . . . and Seattle's included when I say "Here." Since my return to the Pacific Northwest, the weather has been exceptional and at this very minute I'm wearing my teenie weenie Bikini! (Can you picture it?) But before I get lazy in the noon day sun, I've got a letter to write.

Starting out on that wobbly old pogo stick was a little frightening, but it still works by golly, and before I knew it I was in Derry, New Hampshire 03038. (Took the Zip Code Route this time and visited you all numerically!) Derry is home to **John** and **Mary Richardson**. Still faithful to the profession, **Mary** works part time in a small local hospital, but will be a recipient of nursing care sometime in August when her family of four becomes five? **Mary** forsoes a busy summer at home with daughter **Kelly** 4 and son **Kevin** 3. "No long trip back to Illinois this year!"

New Jersey residents **Chuck** and **Jan Hammond** returned recently from Washington, D. C., where **Chuck** attended a Medical Convention. **Jan** was able to visit with **Barb Murphy** while there. Tho the **Hammonds** don't make plans too far in advance because of the ever constant threat of receiving orders to Viet Nam. They are looking forward to June when they'll aim for Expo 67. Kindergartener **Monique** has created a clothes problem with her recent growth spurt while brother **Mitchell**, nearing his first birthday has yet to show a tooth!

I received a tip on where I could find **Rheta Bisefni**. My informant suggested I try Mt. Kisco, New York and she was right. **Rheta** and **Lou** recently purchased a Victorian Type Farmhouse on two acres. **Karen** 6, **Janie** 2, and **David** 4 months, add up to an interesting day (and night!). **Lou** works for American Airlines and they hope to travel a bit as soon as the diapers decrease in number.

Newark, Delaware. I did it! I visited **Ruth Smith** twice in the same house and she didn't even mention moving! During the past few months, **Ruth** has visited with two of her Pres Classmates, **Dee Smith** and **Barb Murphy**. **Ruth** continues her hobby of dog showing and training and has become so involved that she is now secretary of her state's "Dog Club". The care of two foster infants plus her own children (**Sarah** 8 and **Jeff** 6½) occupied most of **Ruth's** time this past winter. Combining business and pleasure, the **Smiths** plan to visit the "Windy City" in Mid-Summer.

More **Smiths** in Newark! Namely **Ed** and **Dee Smith**. They arrived from Raleigh, North Carolina a year ago April. A Dachshound pup "Freddy" joined them in June and the household increased once again in July when their daughter **Amy Rebecca** arrived. She's now a very active ten-month old. **Dee** made a sudden trip back to Illinois last November when her father died of a heart attack. Since completion of his Masters in Physics, husband **Ed** has been with the Dupont Company and enjoys his work very much.

I decided a little air trip was in order and hopped a 'Copter for Washington, D.C. I arrived at National Airport (Ye Gods what a madhouse) and took one mighty leap toward Capital Hill. I missed the Potomoc by literally inches (Whew!) I was in such a hurry because the D.C. girls (**Barb Murphy**, **Carol Seiwel**, and **Nancy Kepple**) and I were meeting for lunch. Lunch was delicious, but I needed a third ear as they all talked at once and I hope I get the facts right. I won't even repeat the hearsay but I sure had two very busy ears! Wow! There was a good deal said about small children as they have a total of 6 between 1½ and 4 years of age. The **Kepples** arrived in

Maryland in October. Paul completed his PHD in Physics and has a research position at the U. of Md. Stephen 4 and Karen 2 keep Nancy busy. The **Murphys** arrived in D.C. about the same time and they will be here until August of '68 at least as Jim has accepted a fellowship from the Brookings Institute (A Political Science Research Institute) for next year. Daughter Elizabeth who is 1½ was diagnosed as Congenital Dysplasia of both hips and wore a Craig splint (not in your nursing books) and is now walking with the best of them. Cris who is 3½ is eagerly waiting from the opening of the swimming pool. I got the impression she wasn't the only one waiting with eager anticipation. The **Seiwells** have been in the D.C. area for "Years." Burt is data processing with NIH—Ah the age of the commuters and computers. Carl 4 and Neil 2 will be welcoming grandparents from Florida and Wisconsin this summer. Carol's new hair style (A-La-Twiggy) was a bit of a shock. All three agreed this was a marvelous place to live. They've taken advantage of the Concerts and there is so much to see in Washington.

I found that Spring on the East Coast wasn't much of an improvement over the wet Western Weather, and was absolutely delighted that my next stop would be Florida (33511). I donned my Bikini and I'll bet Nancy Jacob was sure I'd never leave. Nancy is retired from Air Force Nursing and is the wife of a "Fighter Jock" and mother of an 8 month old son. A five year old poodle and a nine month old boxer complete the active household in Brandon.

Florida's winter vacationers included John and Betty Best, but home is still Lockbourne Air Force Base . . . that's for a few more weeks—July third marks the big day. An "Ageless old brick house" is waiting for them in Manitowas, Wisconsin. Donald 7½, Cathy 6, and Joe 3½ should have much fun exploring it. Packing and unpacking heads Betty's list of summer activities, but I have a feeling she is looking forward to it . . . in a way.

Tom and Sara Taylor were about to leave their Indiana home when I arrived. A spring vacation for them too! A trip to Illinois to visit parents starts their summer season, with Bible School, swimming, gardening and Guitar lessons to follow. Andy 5 claims the Guitar, but he's a bit young yet for lessons so mama thought she might take some "Just for kicks". Come September Sara and daughter Ellen 3 will be participating in cooperative nursery school while son Andy attends kindergarten.

Sara steered me in the direction of nearby Indianapolis (46226), and new home of Judy Thomas. I found Judy with an armload of leaves to distribute. Following her energetic pace I was able to make a complete tour of the brand new four bedroom Colonial-Style house in no time at all. Just as I thought, we were stopping for a breather, she whisked me off to see Tom at his new office. With this move comes the title of District Claim Manager with the Allstate Company. Heading home again my ears were kept busy as Jill 6½ filled me in on her first grade activities, and Leslie 3 chattered excitedly about any number of things.

Following my visit with Judy, I had just enough Oomph left for one big hop to Iowa before day's end. I arrived at the home of Eleanor Duncan (Waterloo 50701) just in time for cookies and milk with Ronald 4 and Suzy who is 3. As tired as I was, my timing was still perfect! The next morning Eleanor showed me their brand new hospital under construction (to be completed in the Fall). She's getting anxious for the "Big Move" as she continues to work at the hospital three days a week. Eleanor's newest hobby is tropical fish. After having them just one week she was blessed with 28 baby swordtails. Summer plans include a fishing trip to Minnesota in June. Hope you catch your biggest ever, Ellie.

Cedar Lake Hills (Slinger, Wisconsin 53086) was my next stop. Seven years ago Tom and Jan Schaffer were "Pioneers" on Cedar Lake, but today they're surrounded with homes. Three familiar faces (Paul, Mark, and Thomas John) gave me the necessary clue to which house was Jan's. Since my last visit to Cedar Lake "Minnie Moons" ago, Jan as had some major surgery which put her behind in a number of things, but all is well now and she's busy as ever. A Red Cross First Aid Program for training school health volunteers and the care and breeding of show dogs are two major interests these days. Tom travels considerably in his job with the West Bend Company and is currently in charge of setting up a new plant in Sheridan, Arkansas. (Now there's a real commuter!)

53534 a third family in the moving mood! Jim and Connie Ray, Cheryl

7½ and Jody 5 will soon be heading for Webb Air Force Base. June is the time and Texas is the place. Connie has been living near her family in Edgerton, Wisconsin while Jim served in Okinawa, and she's looking forward to the change in climate. (I wonder if a nice hot summer will balance out that cold, cold winter!)

60056 on my first on twenty-one visits in the State of Illinois, I caught **Judy Pitek** uttering incantations over her front yard. . . . Something about turning her sore muscles and dirty hands into a magic green thumb! Aside from landscaping, Judy is determined to finish the Flagstone Patio and the remodeling they've started on their kitchen. Deborah and Greg (7 and 5 in August) will probably be around to supervise.

60067 **Judy Bush** was looking forward to her visit to Expo 67 in June and has nominated Dan "Husband of the Year" for insisting that she and her mother go. A recent job change will prevent his going. Spring (in any form) was a welcome sight for Judy who has nursed her family through bouts of Pnuemonia, ear infections, and Mumps this winter. Spring is also birthday time for all three "Little Bushes". Sarah is now 6, Scott is 3 and Jay is one year old.

Approaching a familiar house in Waukegan 60085, I was amused at the antics of a curly headed toddler playfully eluding her mother, **Gay Ferry**. Karen 2 does everything her brother and sister do and then some. Brother is Tom 6½, currently enthusiastic about his reading skills and sister is Debbie 5, very excited about her upcoming dance recital. Gay continues with part-time nursing at a nearby hospital. The Ferrys recently became a two-car family and Gay is pleased with the idea. I was lacking in persuasive powers when I tried to sell them my very reliable Pogo Stick . . . (Ha! Ha!) I wonder what the mileage would be. My speedometer gave out long ago.

I came to the conclusion that it must be easier to move than tackle spring cleaning. Susan 3 and Jeanine L. were most helpful (?) as their mother, **Dorothy Evans**, pursued her packing tasks, finding all the things she needed last Winter. A new address in Addison will be hers by June first. Husband Rich seems happy with his new job as Fireman, having left the Elmhurst Police Department last Fall. Dorothy was one of two representing our class at Homecoming in April.

60104 more moving anticipants! By September Stan and **Barb Brandon** will be in Champaign where Stan will join two Orthopedic Surgeons in private practice. Barb has plans of continuing with Art Classes at the U. of I. Consecutive numbers 4 5 6 7 may not hold special meaning for anyone else, but they mark the birth day of Barb's first son, Steven Dean. Susan 6 and Sally 4 are his attentive admirers. Before leaving the Brandon Household, Steven had convinced me that a majority **can** rule . . . But strong lungs are prerequisite!

60148 half expecting twins, **Pat Koch** was a little relieved when Nicole arrived on March 26th all by herself. "We weren't really prepared to cope with two." Texas was the scene of a recent vacation for the Kochs. Highlights were golfing and a visit with Pat's sister at Fort Hood. Daughter Kim 3 returned with a cowboy outfit complete with six shooters. After she's enjoyed the summer, Pat may satisfy that "Itch To Work" that's bothering her already.

In Maywood, I was entertained with "Slides" of Switzerland. **Betty Spencer's** Swiss vacation earlier this year was everything she'd hoped it would be. A "Spring Vacation" was spent at Vail, Colorado, on skis of course! It appears that this year so far has been a continuous vacation, but Betty insists that her school nursing job keeps her from experiencing those lovely thoughts. She does plan to return to Europe in a year for more vacationing.

60163 **Mary Mueller**, busy as usual, had just finished the chairmanship of the school carnival and a glance at her calendar revealed that numerous upcoming events involving her Brownie Troop and Church Youth Group would require her enthusiastic leadership. In addition, Mary and Wayne participate regularly in Volleyball and Archery sessions.

I was absolutely delighted when **Mary** offered to head the Reunion Committee . . . and Mary will be absolutely delighted when some of you volunteer to assist. My recent survey showed that the majority of you in the Chicago area preferred September while the rest of you tallied most votes for August. Since a large number of you indicated you could **not** make it in September, it appears that an August reunion might be the wisest choice.

Several ideas have been suggested already.

1. The proposed date of August 17 or August 24 for the 1968 Tenth Year Reunion.
2. A Saturday Luncheon in Air-conditioned restaurant.
3. A Lawn Party—You'd Need A Lawn!
4. A Beach Party—You'd Need A Towel!
5. An Evening Party, in addition to one of the above—Men included.

Violent opposers and friendly suggestors please address mail to **Mary Mueller** at 1508 Herbert Avenue, Berkeley, Illinois.

60202 I sincerely appreciate the help I receive in locating lost friends and was most excited when I received an invitation from **Carol Hanneman**. Linda met me at the dor with lots of chatter. When I asked her age she answered, "Terrible two!" (hmm) Charlie looked suspiciously like a sail boat nut, and sure enough, our evening was filled with sea stories, including his sailing in the Mackinac race last summer. I think Carol especially enjoyed the cruise down Lake Michigan after the race while Linda was in the safe keeping of her grandmother, Charlie's mother who was visiting from Germany. (That's a long way to go for a babysitter!) Charlie's occupation is that of financial analysis and Carol's is currently a "seamstress" of Linda's summer wardrobe.

My zip code route wasn't foolproof because my three Oak Park friends claim the same number. (60302) I was near Randolph when I noticed my predicament so **Shirley Krick** was elected to feed me first. Our delicious dessert was a birthday cake presented to Tommy 4. (Perfect timing again! I'm getting pretty good at this now.) Sherry celebrated a birthday on April First and an "Innocent Two" was the only way I could describe her when I saw her napping so peacefully. Shirley had no comment. "Status Quo", with a contented smile, was all I could get out of her. When the topic of Spring cleaning came up I suddenly felt the urge to move on. Just two blocks away lives **Connie Ryan** but several neighbors finally convinced me that she was not home. (Cant blame a soul for tryin' . . . so I was a little noisy. Creating a disturbance has always been one of the very favorite pasttimes of mine! Remember?)

I proceeded to the town house of **Walt and Jeanette Whisler** and was startled to see such a neat tan! (I was under the impression that Chicago's Spring had been cool and cloudy, too.) A sagacious smirk was detectable and she finally admitted her secret of sunning success. They had just returned from a trip to Los Angeles, San Francisco (for aneuorsurgery convention) and Hawaii. Of all the times for me to goof, I had to miss out on a trip to Hawaii. While reprimanding Jan for not thinking of me when she planned that vacation, in walked Walt and I quickly changed the subject. (Wheew . . . that was close!) Walt is writing his thesis for his Ph.D. in biochemistry and will be taking his boards in neurosurgery this Fall. He's been appointed assistant attending on PSL hospital staff. The assistant O.R. Director (Jan) will be taking a loa in preparation for the first little Whisler arriving in September and was most excited about the forthcoming event.

Jan was one of several of you who told me of the recent news from PSL School of Nursing. Out of 100 applicants for the Fall, only 12 were qualified for acceptance. Hence the decision to close the school. Saddened by the news I went directly to DE who was in Oak Park for her sister's wedding. She wasn't much help. In fact I had to cheer her up!

60558 **Joan Linden** welcomed a third son in November, but maintains that "He's so pretty he should have been a girl." The Lindens flew (courtesy American Airlines, of course) to San Diego and Dallas for a vacation early this year. In January Joan was visited by two of her classmates at her home in Western Springs. **Kate Borgsmiller**, **Carol Hanneman**, and Joan certainly enjoyed their reunion. Via that grapevine I learned that **Jan Anderson** will be receiving her "Masters" this June.

Joan occasionally sees another classmate who works full time in a familiar photography studio a few blocks away. Leaving for an afternoon of golf Joan pointed the way and soon **Nikki Bresnahan** was filling me in on her latest travels. They've recently been to Tucson, Mexico, Los Angeles and San Francisco. Business is really booming and I'm proud to report that the Bresnahans received some awards from their exhibits in the Illinois, Wisconsin, and Indiana state conventions. Their son John is five and enjoys school.

Another golf enthusiast is **Dottie Bossard**. She even tried to form a league at Bell Telephone labs where she works, but not enough were interested. The "Sweet Adeline's" gained a new member last Fall and Dottie's been having lots of fun singing barbershop harmony. In addition to her laboratory nursing job, she has started working part-time at Hinsdale Hospital "just to keep up with things" in case she decides to change again. (I think she kind of misses the hospital atmosphere with all its bustle!) Summer plans include car shopping instead of vacationing this year. (Would you be interested in a slightly bruised pogo stick, D. B.???)

It felt so good to be back in the Windy City again. I was hopping carefreely along singing "Chicago, Chicago, that wonderful . . . oops" (better make that carelessly) when I collided with a building. Wouldn't you know it? A hospital. The Evangelical Hospital to be exact. There was something familiar about this place. Then I remembered; **Camille Proud** lives right across the street. Picking myself up and briefly examining pogo I noticed Camille. She'd witnessed the whole scene and though terribly amused, she showed genuine concern and insisted that I be seen by one of the doctors. While there I also saw Camille's husband Ted, who was recently promoted to full administrator of the hospital. There's a room reserved there for "early June", at which time Camille and Ted will become "proud" parents again. Meanwhile she's trying to keep calm, but Cara 2½ is anything but a calming influence.

Camille was the other representative from our class at Homecoming. In addition to the closing of our hallowed halls was the sad news that **Miss Magdalene Steward** passed away in February from a M.I. "Homecoming" was a tenth reunion affair for our Big Sis class and Camille enjoyed her visit with them.

You may recall that **Jim and Flo Phillips** are real camping bugs. In fact, for the past few years I've found that same old weatherbeaten sign on the door, "Gone Fishin'". Well, this year I beat them to the door, but not by far. They'll soon be spending their leisure at a newly purchased lakeside cottage, located 100 miles from Chicago. (near Lake Geneva) There's a new sailboat, too, and it all adds up to fun for Jim, Flo, Cathy 7 and David 5. Swimming is also a family favorite and Flo has been an instructor at the YMCA. Jim is a salesman and handles various factory accessories. Flo's sister Mary is a PSL grad (Class of '60) and they spend a lot of time together as she lives very near.

61350 One of Ottawa's good citizens stopped me as I approached the City Center. **Ellie Lewis**, with her friendly persuasion should be a great asset on their fund raising project. Their goal is one million dollars for a new five million dollar hospital. "Ellie", I said, "If you can build a five million dollar hospital with one million dollars, I'm going to stay around for some lessons." Ellie tried her best to explain it to me. (Now I know why I'm a moocher!) Arriving abruptly on the scene were three "all boy" boys, namely Gregory 8, Bobby 4½ and John Henry 2. They appear to be the most active members of the family, But Ellie runs a close race. She's a Red Cross nurse for Bloodmobiles; she serves on the Public Health Board, teaches Sunday school, exercises at the YMCA, and keeps track of all her boys, and that includes Robin. He still teaches at R & E which keeps him in touch with some of his training buddies.

Heading south to Lincoln 62656, I arrived on **Jan Ulrich's** EDC but baby Ulrich wasn't quite ready to face the world. Lynda 7 would definitely like a sister, but Alex 5 is too busy to be concerned. Joining husband Ed in his favorite hobby, the Ulrichs flew to Padre Island, Texas, and Mexico City. Jan plans to include a nearby pool in her summer fun if baby No. 3 has a sweet disposition.

Springfield now claims two of my friends: **Marcia Gibson** and **Sandy Hill**. The Gibbons moved from Flora recently. Jack is now employed with the J. W. Hobbs Company and Marcia is temporarily retired from nursing. She worked part-time in Flora and just before retiring had participated in special classes for an intensive coronary care unit which she found most interesting. Marcia loves Springfield and has met many new friends through the "Nu-Comer's Club". Immediate summer plans include sewing for Camille 7½ and Jackie Sue 3. Bridge is a favorite pastime whenever she gets the chance.

The latest news at Sandy's is that the Crawford clan would be gathering

for the last daughter's wedding. Brother Paul will be coming from Hawaiian navy duty and following his leave he'll begin duty in San Diego. If he joined the navy to see the world, he is sure seeing the sunnier parts. Golf is a favorite with the men and Sandy says her father now has a foursome of sons-in-law. Swimming will be included in summer fun for Sandy, Amy who is one and Lauri who is 6, and Jack will no doubt be chasing a little white ball.

62956 "Energetic" describes Kate Borgsmiller and "Travelers" describe this family of six. They spent Christmas in Tulsa and over half the month of March in various parts of Florida. Their children (Dirk 5, Jane 4, Johanna 2½) accompanied them while their baby Julie Ann (now 7 months) was cared for by friends. Fritz and Katie also spent a few days in Chicago during January. Visiting with Carol Hanneman and Joan Linden were among the hi-lights of that trip. Kate continues to be active in her community's civil defense program and works only an occasional day at the hospital. Needless to say her spare time is at a minimum these days!

63126 Tec Leyerle is back in St. Louis. Jim switched from selling to purchasing and is to begin work on his masters degree. Along with the selling job went the big company car and the trips all over the country. Tec was eager to show me the nice house they have rented and she was so pleased with the lovely yard. Didn't look like staying home would be much of a strain as I picked out several excellent spots to spend the summer afternoons. Jamie 3½ had just recovered from chicken pox. They waited for Jim to get them but nothing happened.

I was anxious to visit the "Heir Apparent" of my room at Polly Mayes' home in Dallas. Can you imagine how I felt being replaced by a boy? John Terrell arrived October 27, 1966 and was graciously welcomed by his big sister, Cathy who is 4. I could sure go for this nice slow easy livin' again but as I checked my itinerary, I noticed an asterisk at my next stop and that means "swimming pool". Mary Jane Kehle and daughters Beth 6 and Deborah 3 were mking good use of it when I arrived so I just hopped right in. Paul and Mary were enthusiastic about recent trips to Mexico. The last one was in April when they chaperoned 19 college-career kids for a long weekend. They took all their own food and water and Mary did all the cooking on a two burner camp stove. (I was impressed.) Mary will be director of Vacation Bible School and will lead a special summer program for their Sunday School class.

92106 Ah—the blue Pacific. I was running a little ahead of schedule so I decided to check Hermosa Beach area where I was supposed to find Vivian Anderson Hayes. No answer to my knock so I hopped right on down the beach (always avoid those freeways if at all possible) and arrived at the Rees residence. Gary is to deploy in June for about 6 months and Kathy is going to do some deploying of her own. She and the children are going to spend the summer in Iowa with the relatives. Gary received his second full stripe and is a full Lt. He is operations and communications officer on USS Bream, a WWII vintage submarine. Kathy and Gary recently spent five "glorious" days in San Francisco — a second honeymoon! It was Kathy's first flight. I tried to remember my first flight but just haven't any recollection beyond 1959 when I was supposedly born in a flight of fantasy and that is the first flight I can remember. And when I asked more of "those" questions, I was told that my full name was Minerva and that I sprang full grown from the head of D.B. and if you think those stork stories are hard to believe, try this one. But I digress. Actually, I was waiting for reservations from San Francisco but it would appear that the Bay area completely forgot me. (Boo! Hoo!) Someone could have hi-jacked their mail I suppose.

So I sneaked aboard a transport plane and a few hours and 5500 miles later, arrived on the island of Guam. Con and Ellie Slaviero have been stationed there nearly a year with the Air Force (Con is a chaplain). I found Ellie up to her ears in bananas. (She wishes eggs and lettuce were as plentiful.) And that reconstituted milk — well! A "Rest and Recreation" trip to Japan was taken last year and they plan to see Hong Kong, Taiwan and revisit Japan on future R & 8 trips before returning to the states next June.

Ellie keeps busy with Sunday School, Brownies, bowling, teaches a mother and baby care course and also does volunteer nursing for air-evacs from Viet Nam. They meet the planes and help with everything and anything. Ellie says "when you work you really become part of the war." Guam is a nice tropical island with beautiful beaches and banana trees and coconut palms; it also has frequent earthquakes and typhoons. It is half Navy and half Air Force and home base for the B-52's. All this on an island 10 miles by 30 miles. Though Con travels a great deal; Ellie keeps the home fires burning for Julie 7 and Todd 5.

My next "Port of Call" was Portland (Oregon, not Maine) and I was back in the Pacific Northwest, "Home" to four of us: June Chitty, De Good-fellow, Sonja Stork, and me!

The Chitty's have built a beautiful new home at Lake Oswego and they'll be "building" a lawn this summer. Jack got his boards in Internal Medicine this April and is in practice with a group of four other doctors. June will be pursuing her art interest with classes at Marylhurst College in the Fall. On the "Fourth day of Christmas" (12-28-66) the Chitty's Christmas gift was a son named Andrew. To be sure, he's the center of attraction these days. Lisa 7 and Julie 5 try very hard to be "helpful". Doting grandparents will have their first chance at spoiling him when the family pays a visit in Peoria for three weeks in June.

That household was so busy that I became exhausted just watching them so I decided to hop the gritty Great Northern and ride the rails. It isn't my preferred mode of travel, but it's a lot easier on the legs.

I arrived in Seattle and went directly to the ship canal to see if I could spot De and Bill on their sailboat and sure enough, there they were. They had just returned from a "neat" weekend on Puget Sound. De can still recall some "not so neat" weekends last winter when it was just a wee bit cold and wet. I went along occasionally and I can vouch for her! A "relative" vacation earlier this year took Ds and Bill to Illinois, Wisconsin, and Maryland. They had a delightful visit with the Seiwells while in the D.C. area.

Just about the time of my departure, De's doctor decided that she needed major surgery. Tactfully (?) explaining that hospitals and sick people don't really appeal to me, I said my farewell as planned. (You see, I actually went into nursing for the money and when I learned the truth about that, I decided to become a moocher.) My timing really couldn't have been better because Mike Stork 5 had surgery while I was gone too. Sonja said that after he'd received the usual amount of gifts, ice cream and sympathetic attention, his brother David 6½ finally remarked "I think I'm going to need my tonsils out too". Mike's squeaky little voice had disappeared and he can yell with the rest of them now so it looks like summer will be as noisy as ever. (And who'd want it any other way???) Sonja likes to spend her leisure gardening, swimming and playing the piano. Her husband Don is another enthusiastic golfer. There will be a late summer summer treat when Don's folks will visit from South Dakota.

Before I'm as lobster red as my teeny weeny bikini, from sitting in this nice warm sun, let me thank you all for your royal hospitality, and let me remind you to be looking for me again early next Spring. Now don't mistake me for the Easter Bunny just because I hop!

Adieu to you,

PRESIDENTS MESSAGE

One more year has passed and much has transpired in the lives of all the Presbyterian-St. Luke's Hospital School of Nursing family.

We have been made cognizant of the many issues and changes that are affecting the entire profession, as well as our own school. In my first message to the Alumni, I stressed the importance of assuming a "Positive Position," in alerting ourselves to the multiple problems and issues facing the nursing profession. It is even more important today. We must give profound thought to these issues. We must recognize the realities of today and set the direction for the future. To this end I will continue to seek your cooperation and activity.

It will continue to be the signal responsibility of the Alumni to promulgate the spirit of our great association, designated by loyalty, friendship, professionalism and service.

Sincerely yours,

(Mrs.) KATHRYN GDALMAN
President

Executive Secretary:

Miss Magdaline Steward, was our Executive Secretary, from November 1966 to February 9, 1967. She died suddenly on her way to work. Miss Steward or Ming as we all knew her left behind a legacy of friends and devoted co-workers in the Alumni and School Of Nursing.

The Board of Directors held two special meetings and four regular meetings. Your president presided at all meetings. Our second special meeting was to read the letter of resignation of our Treasurer Clarice Schmettler and appoint a Treasurer to fill her unexpired term. Mrs. Edna Travers was appointed to fill this vacancy. We wish Merel all the best in her new position.

Your President conducted business meetings for the following regular meetings held February 3, 1967, June 12, 1967 and October 9, 1967.

It was a sincere pleasure to extend greetings to the Alumni and honored guests who attended our Annual Homecoming Day and Banquet on April 20, 1967.

As your representative I accepted an invitation to attend the graduation breakfast at the School Of Nursing on March 3, 1967, and again on September 15, 1967. Our Alumni Association Awards were presented to Janet Dubs, and Maureen Karpus, respectively. The awards were given on the basis of outstanding performance in patient care, scholastic achievement and citizenship. The commencement service was held at the Fourth Presbyterian church.

As your representative I also presented our "Student Scholarship Award" to Karen Walsh, a member of the Senior class of resbyterian-St Luke's Hospital School Of Nursing.

I would like to take this opportunity to express my very deep appreciation to many persons, those on the Board and members alike, who have made this difficult year an interesting and meaningful one to me personally. Sincere thanks to all my committee Chairmen and their committees for an outstanding job well done. A special thank you to Edna Travers for her continued devotion and interest in Alumni Affairs.

May you all have a very Happy Holiday and New Year.

Respectfully Submitted,
KATHRYN MINOR GDALMAN,
President

THE EDUCATION FUND

Many persons today honor birthdays and anniversaries by sending contributions to their favorite education funds. Many others find deep satisfaction in making memorial contributions, thereby serving the living and paying thoughtful tribute to the memory of a loved one. Why not help your Alumni Education Fund by so doing? An acknowledgement will be sent to the family or friend by the chairman of the Education Committee and the amount of the gift will be held in confidence.

The Education Committee of the Alumni Association extend their welcome to new graduates and new members. Through the Education Fund, Scholarships and Educational Loans are available to those who wish to continue their education.

A Graduate Nurse Scholarship is awarded each year for which application forms are available through members of the Education Committee. These applications should be submitted to the Committee before May 1 for the following school year. Educational Loans from the M. Helena McMillan Graduate Loan Fund may be applied for at any time. An Educational Loan is granted without interest and is to be repaid within a three year period.

If you are interested in continuing your education and earning a degree, the Alumni Association may be able to assist in accomplishing your goal. Contact one of the members of the Education Committee or write to the Alumni Association "Education Committee" for further information.
